Suite Spot

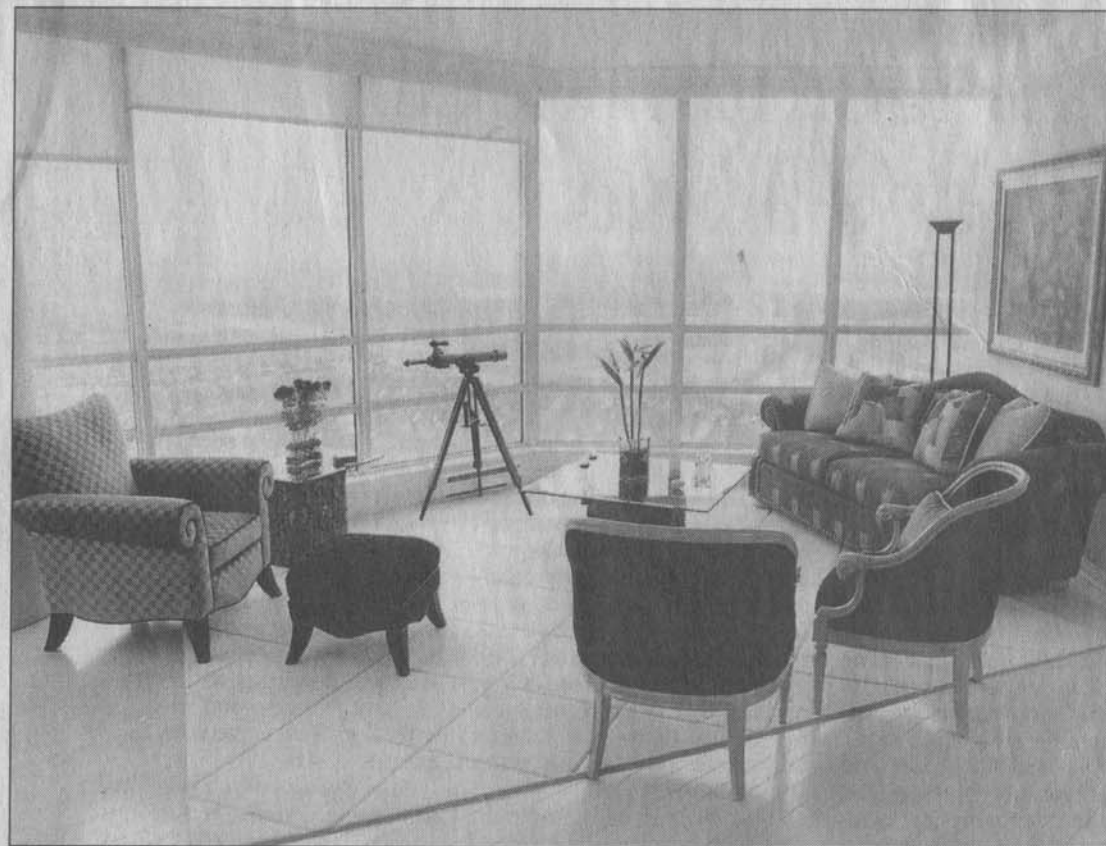

BEFORE

JOHN TREGIANI PHOTOS

This living room, decorated by Anita Wiklem of Decorating Den Interiors (Thornhill), features floor-to-ceiling windows that are an obvious focal point. The clients wanted a light look, with white, cream and gray walls, accented by furnishings in deep, bright colours. The decorator selected a sofa in a purple fabric scattered with metallic gold shapes and gave the ram's head chairs a modern spin with black velvet. The carpet was removed and the floors finished in a pickled maple colour, with a custom carved diamond-patterned cream rug.

Suite Spot looks at before and after photos of local condominiums. Interior designers and decorators should send clear, colour photos and a brief description of their input to Condo Living, The Toronto Star, One Yonge St., Toronto, M5E 1E6.
